

The third NESSoS industrial forum will take place on June 4th in Malaga. This event takes format of a Special Industry Session titled “Security By Design: From Theory to Practice”

The keynote presentation will be made by the chairman of Trudt in Digital Life, Mr Sarma who will raise relevant questions and challenges, followed by several industrial presentations and a panel discussions. The special focus this year is on cost-benefit arguments that would help in adoption of tools and techniques for the secure service and software development.

Date and Venue: Malaga 4th of June 2013, hotel NH Malaga, c/ Jacinto 2 (<http://conf2013.ifiptm.org/program>)
